

Research Grade Anti-REGN5381 (REGN9035) mAb

Catalog No.	DAD14701A DAD14701B	Quantity:	100 µg 1.0 mg
Description:	Research Grade Anti-REGN5381 (REGN9035) monoclonal antibody developed as a reversal agent to REGN5381 as a NPRA antagonist (Natriuretic peptide receptor 1 antagonist.)		
Target:	REGN5381 antibody		
Concentration:	1.0 mg/ml, lot specific		
Source:	Mammalian cells		
Isotype:	Human IgG4		
Formulation:	Sterile-filtered 0.01M PBS, pH 7.4		
Purity:	> 95% by SDS-PAGE		
Endotoxin Level:	≤ 0.01 EU/µg by LAL analysis		
Purification:	Protein A/G affinity chromatography from cell culture supernatant		
Clone:	REGN9035		
Applications:	Functional studies		
Storage & Stability:	Store at 2-8°C for up to 1 week, or in working aliquots at -20°C to -80°C for up to 1 year. Avoid freeze/thaw cycles.		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
