

TNFSF15

Research Grade Tulisokibart

| | | | |
|---------------------------------|---|------------------|------------------|
| Catalog No. | DHB54001A DHB54001B | Quantity: | 100 µg 1.0 mg |
| Alternate Names: | CAS: 2648504-55-4 | | |
| Description: | Humanized monoclonal antibody Tulisokibart targeting VEGF inhibitor, TNFSF15 with anti-inflammatory effect. | | |
| UniProt ID (target): | O95150 | | |
| Specificity: | Human TNFSF15 (Vascular endothelial cell growth inhibitor) | | |
| Concentration: | 1.0 mg/ml, lot specific | | |
| Source: | Mammalian cells | | |
| Isotype: | Humanized IgG1 kappa | | |
| Formulation: | Sterile filtered 0.01M PBS buffer, pH 7.4 | | |
| Purity: | > 95% by SDS-PAGE | | |
| Endotoxin Level: | ≤ 0.01 EU/µg by LAL analysis | | |
| Purification: | Protein A/G affinity chromatography from cell culture supernatant | | |
| Binding Activity: | EC ₅₀ = 263.6 ng/ml, Tulisokibart binds with TNFSF15/TL1A by indirect ELISA | | |
| Storage & Stability: | Store at 2-8°C for up to 1 week, or in working aliquots at -20°C to -80°C for up to 1 year. Avoid freeze/thaw cycles. | | |

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
