Research Grade Enapotamab

Catalog No.	DHD89501A DHD89501B	Quantity:	100 µg 1.0 mg
Alternate Names:	HuMax-AXL-ADC, Enapotamab vedotin, CAS: 1912423-61-0		
Description:	Research Grade Enapotamab is a human monoclonal which targets human Tyrosine-protein kinase receptor UFO		
UniProt ID (target):	P30530		
Target:	Human Tyrosine-protein kinase receptor UFO		
Concentration:	1.0 mg/ml, lot specific		
Source:	XtenCHO		
Isotype:	Human IgG1 kappa		
Formulation:	0.01M PBS buffer, pH 7.4		
Purity:	> 95% by SDS-PAGE		
Endotoxin Level:	≤ 0.01 EU/µg by LAL analysis		
Purification:	Protein A/G affinity chromatography		
INN:	Enapotamab		
Applications:	Functional studies		
Storage & Stability:	Store at 2-8°C for up to 1 week, or in working aliquots at -20°C to -80°C for up to 1 year. Avoid freeze/thaw cycles.		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
