

TRBV9

Research Grade Seniprutug

Catalog No.	DHK86201A DHK86201B	Quantity:	100 µg 1.0 mg
Alternate Names:	T cell receptor beta variable 9, TRBV9, CAS: 2484772-72-5		
Description:	Research Grade Seniprutug is a humanized monoclonal antibody directed against human T cell receptor beta variable 9.		
UniProt ID (target):	A0A0B4J1U6		
Target:	Human T cell receptor beta variable 9		
Concentration:	1.0 mg/ml, lot specific		
Source:	XtenCHO		
Isotype:	Human IgG1 kappa		
Formulation:	0.01M PBS buffer, pH 7.4		
Purity:	> 95% by SDS-PAGE		
Endotoxin Level:	≤ 0.01 EU/µg by LAL analysis		
Purification:	Protein A/G affinity chromatography		
INN:	Seniprutug		
Applications:	Functional studies		
Storage & Stability:	Store at 2-8°C for up to 1 week, or in working aliquots at -20°C to -80°C for up to 1 year. Avoid freeze/thaw cycles.		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
