Mouse Anti-Human CD45RB Isoform (Clone MEM-143) mAb

Catalog No.	MON2085	Quantity:	100 ug
Alternate Names:	Receptor-type tyrosine-protein phosphatase C, Leukocyte common antigen, L-CA, T200, CD45		
Description:	MON 2085 reacts with a protein determinant of CD45RB, a 18-240 kDa single chain type I membrane glycoprotein, variant of CD45 (CD45RB isoform). CD45RB is expressed on a subset of T lymphocytes, B lymphocytes, monocytes, macrophages, granulocytes and dendritic cells. The MEM-143 is therefore not neuraminidase sensitive like most other anti-CD45RB antibodies (including standard antibody MEM-55). The reactivity of the antibody MEM-143 can be blocked by a peptide including amino acids 79-88.		
Concentration:	1 mg/ml		
UniProt ID:	P08575-9 (Isoform 7)		
Specificity:	Human CD45RB		
Host:	Mouse		
Immunogen:	Human peripheral blood lymphocytes		
Isotype:	IgG1		
Clone:	MEM-143		
Formulation:	Purified antibody in PBS containing 15mM sodium azide		
Applications:	FC		
Storage & Stability:	Store at 2-8°C until expiration date.		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
