Mouse Anti-Human CD20 (Clone L26) mAb

Catalog No.	MON3226	Quantity:	1 ml
Alternate Names:	B-lymphocyte antigen CD20, B-lymphocyte surface antigen B1, Bp35, Leukocyte surface antigen Leu-16, Membrane-spanning 4-domains subfamily A member 1		
Description:	CD20 is a transmembrane protein in late B-cell precursors and mature B-cells that plays a role in regulating proliferation and differentiation. CD20 expression is lost at the plasma cell stage of differentiation. MON 3226 (pan B-cell) has rarely been detected in T-cell malignancies, and is a dependable marker of B-cell lymphomas such as DLBCL. CD20 expression is present in some thymomas. It does not cross-react with non-hematopoietic neoplasms.
