

Mouse Anti-HIV Protease (Clone 1696) mAb

Catalog No.	MON4051	Quantity:	100 µg
Alternate Names:	HIV-1 PR, HIV-2 PR		
Description:	The antibody recognizes free N-terminus of mature HIV protease (HIV-1 and HIV-2). Does not react with precursor.		
Concentration:	1 mg/ml		
Specificity:	Mature HIV protease, N-terminus		
Host:	Mouse		
Immunogen:	Bacterially expressed full-length HIV-1 protease		
Isotype:	IgG1		
Clone:	1696		
Formulation:	PBS, pH 7.4 containing 15 mM sodium azide, pH 7.4		
Applications:	WB, ELISA, FS		
Application Notes:	Strongly inhibits the activity of HIV-1, HIV-2 proteases		
Storage & Stability:	Store at 2-8°C for 3 month or in undiluted aliquots at -20°C to -80°C up to 1 year. Avoid repeated freeze/thaw cycles.		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
