

## DAXX

### Mouse Anti-Human DAXX (Clone DAXX-01) mAb

<b>Catalog No.</b>	MON5000	<b>Quantity:</b>	100 µg
<b>Alternate Names:</b>	Death domain-associated protein 6, hDaxx, ETS1-associated protein 1, EAP1, Fas death domain-associated protein		
<b>Description:</b>	DAXX is a FAS binding protein and a modulator of Jun N-terminal kinase (JNK)-mediated cell death. It is a multifunctional protein, expressed throughout the body, residing in multiple locations in the nucleus and cytoplasm. DAXX has been shown to mediate apoptosis through extrinsic death receptor pathway as well as to regulate gene expression as a transcriptional co-repressor/co-activator by interacting with diverse DNA-binding transcription factors, epigenetic regulators, core histones and chromatin-associated proteins		
<b>Concentration:</b>	1 mg/ml		
<b>UniProt ID (target):</b>	Q9UER7		
<b>Specificity:</b>	Human Daxx		
<b>Host:</b>	Mouse		
<b>Immunogen:</b>	Recombinant C-terminal part (aa 558-740) of human Daxx		
<b>Isotype:</b>	IgG1		
<b>Clone:</b>	DAXX-01		
<b>Formulation:</b>	PBS containing 15 mM sodium azide, pH 7.4		
<b>Applications:</b>	WB, ICC		
<b>Storage &amp; Stability:</b>	Store at 2-8°C for 1 month or in undiluted aliquots at -20°C to -80°C up to 1 year. <b>Avoid repeated freeze/thaw cycles.</b>		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
